No allergy issues!, Low VOC adhesives

Meets the strictest air quality standards

## **Lifetime Warranty**

On all mechanical components.

Peace of mind, your chair is built to last a lifetime.

The science of seating

# Ergonomics

You know it's important

Want to sit for hours without pain?

We offer all the options in 1 fantastic chair that is designed to last decades.

## The Key to Comfort is Support

*Start with your back*

Few chairs provide proper back support when you are leaning forward. Good news, our chairs are designed specifically for sewing.

1. The chair back can be locked fully upright.
2. Adjustable lumbar, supports your lower back with the twist of a knob.
3. Height adjustable back for lumbar support in the right place.

## The Right Cushion

*A cushion that will not "go flat"*

1. High quality American foam that will last. Not available with other brands.
2. Petite seat depth. If you're short most chairs will not provide proper back support.

## The Right Angle

*Once you try it, there is no going back!*

The seat cushion and back can be tilted up to 10 degrees forward which does several things.

1. Back support when leaning forward.
2. Relieves pressure point at the front of the chair; preventing numbness in your legs.
3. Pivoting allows your feet to reach the floor at a higher sitting position giving you a better view of your work.

## The Right Height

*Sitting at the proper height prevents neck and shoulder pain.*

Adjust the height of your chair so your neck and shoulders are comfortable.

If your feet do not reach the floor you should consider getting a stool or footrest.

# Design your Ultimate Chair in 3 easy steps.

## STEP 1

Choose the perfect size

### Petite

*You don't need to be short to love this size*

- Ideal for those below 5' 7" or those of us who like to curl our legs under the chair.
- Seat depth of ~18"
- Width varies by cushion type 19-21"

### Premier

*Mama Bear's chair*

- A seat that is wider and deeper, the most popular size.
- Fits folks from 5' 5" to about 6'
- Seat depth of ~19 1/2"
- Width varies by cushion type 21-22"

### Premier Tall

*If you rarely need a ladder this one is for you.*

- We recommend you combine with the taller 8" cylinder.
- Fits those 6' or more.
- Same seat cushion size as premier with 2" taller back.

# STEP 2

Cushion that feels amazing all day.

## Standard

Good

Premium foam in a wrapped (rounded) cushion that will sit well for years.

## Contour

The top seller

A moulded contour cushion with premium edge stitching

Medium firmness that cradles you in the chair like the seat of a really nice car.

## Pillow

Soft and comfy

Like a pillow top mattress - super soft but with good support. You may fall asleep.

Not available in Petite size.

Make it undeniably yours

# STEP 3

Nearly unlimited color choices

Colors? We have them.

Love purple? We have it.

Hot Pink? That too.

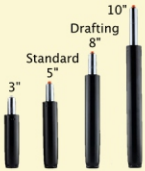

Prefer earth tones? Got you covered.

We offer over 120 different fabrics!

Here's 1 page of color choices. Like many things, colors and styles change. Visit your local dealer for the latest selection.

# Wait, There's more Options

## 4 Cylinder heights for the perfect sewing position

Do you want to sit up to a cutting table?  
Do you have a longarm quilting machine?  
Maybe you have a taller cabinet?  
If you answered yes very likely the 8" drafting cylinder with the optional ring is what you want.  
Unless you say so, your chair's default cylinder is 5".

Drafting Cylinder with optional foot ring

## Casters or Glides

Durable plastic casters come standard. For carpet they are fine but..

Soft Caster

These will never scratch your floors. Highly recommended!

Manual Brake

On 1 wheel Easy to lock and unlock with your foot.

Compression Release

Sit it rolls  
Stand it does not roll

Glides

Not casters at all just feet.

TC

T4

## Armrest

Stealing your sewing chair for office work?  
Add armrest for the Ultimate office chair.

### ADJUSTABLE

- In - Out
- Up - Down
- Arm Pad Forward - Back
- Arm Pad Angled In - Out

For the ultimate in adjustability choose the T4 armrest.

## Seat slider

If sharing a chair with someone of a different height. The seat slider allows you to adjust the cushion to seat back in 1/2" increments for better support. Adds 1" of height from the floor.

Did you notice - Made in America?

# MANUFACTURING

Attention to detail

From the raw materials to finished product  
each item is chosen with care.

- American wood molded and shaped for the chair base.
- American foam cut to fit
- Quality textiles from various countries
- Durable mechanical components
- Manufactured and assembled in America

For your peace of mind (and because it's the right thing to do), all components are certified to meet the strictest indoor air quality standards. Guaranteed to not cause allergy issues!

## Guaranteed to last:

All mechanical parts are covered by a lifetime warranty. If something doesn't seem right, reach out to us by email or phone. We will repair or replace the item as needed.

All textiles are guaranteed against manufacture defect for 3 years. Even if it's beyond 3 years or something your furry friend damaged, not all is lost. Call and/or email a photo and we will give you a quote for repair.
